ENVIRONMENTAL POLICY

We are committed to preserving the environment through a comprehensive environmental policy and proactive approach, and to continually minimize waste generation and to prevent pollution by all possible ways.

The objectives of our environmental policy are :

- To adhere to all applicable environmental legislation and regulations.**
- To conserve all resources such as power, water, etc, and optimize their usage through scientific methods.**
- To provide a clean working environment to our employee, contractors and neighbours.**
- To communicate environmental policy and implement throughout the organization.**
